

(Science, Mathematics and Research Training)
July 12-16, 2024

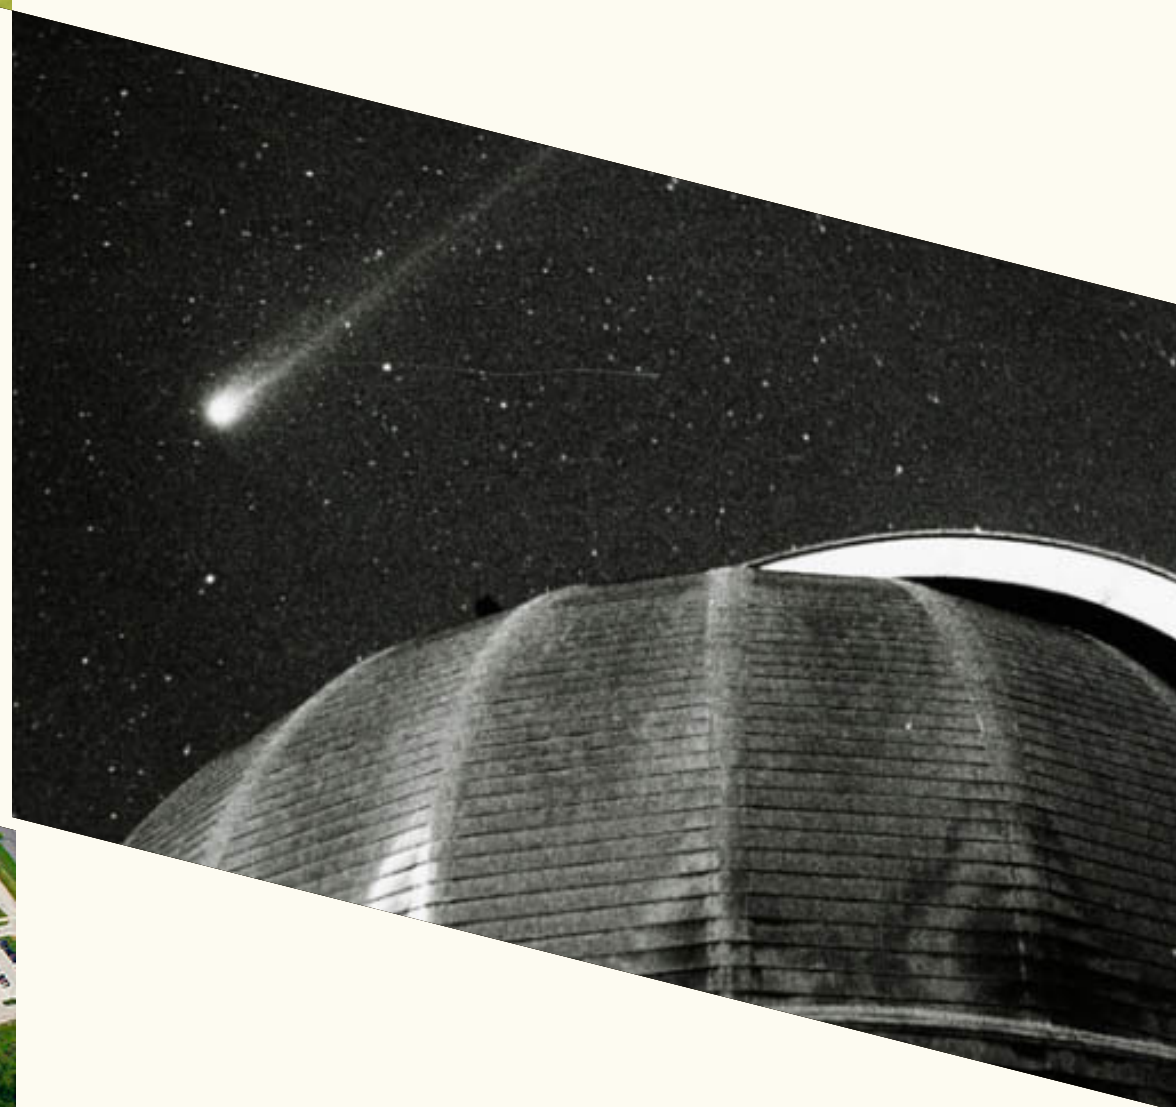

This **cost-free** outreach program is open to **high school students with no previous experience required**. Students will need to provide their own transportation to the University of Chicago.

UChicago Campus

- Engage in **quantum science experiments** and learn about phenomena such as **superconductivity**.
- Conduct engineering projects including **solar cars** and **3D printing**.

Yerkes Observatory

- Explore the “**the birthplace of modern astrophysics**”, and delve into the wonders of the universe!

Argonne National Lab

- Visit the first U.S. national laboratory to explore **cutting-edge research** and uncover the secrets of the **particle accelerator**.
